

BSD Postdoc Association Weekly Bulletin

September 30, 2008

Summary:

- 1. CAPS Career Fair this Friday (No PDA seminar this week)**
- 2. Chicago Biomedical Consortium Frontiers in Molecular Imaging Symposia (10/31)**
- 3. The 2008 BSD Postdoctoral Survey is now Open**
- 4. NIH Funding Opportunities**
- 5. Academic Keys: Higher Education Positions in Biochemistry and Cellular Biology**

1. CAPS Fall Career Fair:

Come to the Fall Career Fair to meet over 75 prospective employers from various fields and industries!

When: Friday October 3, 2008 12:00pm – 4:00pm

Where: Ida Noyes Hall, Cinema Library 1212 East 59th Street, Chicago, IL

For details on employers represented, check the Chicago Career Connection. You can access it through the CAPS website at: <https://caps.uchicago.edu/> . Log in to your account through the link on the left side menu.

For more information regarding any of these events, please call CAPS at (773) 702 – 7040 or visit us on the web at <http://caps.uchicago.edu>

2. Chicago Biomedical Consortium Frontiers in Molecular Imaging Symposia (10/31)

Sixth Annual CBC Symposium

The Chicago Biomedical Consortium (CBC) will hold the annual Symposium, *Frontiers in Molecular Imaging: From Promise to Practice*, on October 31, 2008 at the UIC Forum, University of Illinois at Chicago, 725 W. Roosevelt Rd.

This is a **FREE** event offering networking and poster presentation opportunities.

To register, submit a poster, or view the agenda, please visit our website <http://chicagobiomedicalconsortium.org/>.

3. The 2008 BSD Postdoctoral Survey is Now Open

ATTENTION POSTDOCS:

The Biological Sciences Division Postdoctoral Association (BSD-PDA) invites you to participate in the BSD Postdoctoral survey of 2008.

This survey is designed by the BSD-PDA for the postdoctoral community. The information collected will facilitate in identifying postdoctoral issues and better equip the BSD PDA to advocate substantive policy changes for postdocs. Previous surveys have helped identify discrepancies in postdoctoral compensations, leading to administrative policy changes. Thus, your feedback is crucial for making future changes happen.

Your answers to the questions as well as any comments you make throughout the survey are completely anonymous, so feel free to be as honest and critical as you choose. We estimate that completion of this survey will take 15 minutes on average. Upon completion of the survey, you may choose to be entered into a drawing with a chance to win an iPod.

The survey will be open starting today, September 29, and run through October 10. To take part in the BSD-PDA survey 2008, please click on the link below or visit the BSD PDA website - <http://www.bsdpostdoc.uchicago.edu/>.

We thank you for your helpful comments and suggestions, and we look forward to better serving you.

The BSD Postdoctoral Association

4. NIH Funding Opportunities:

The NIH has launched a "**Roadmap for Medical Research**" Initiative, spearheaded by the NIH Director, Elias Zerhouni. The NIH Roadmap is a series of progressive initiatives that seek to transform the nation's biomedical research capabilities and accelerate the advancement of research discoveries from the bench to the bedside. The purposes was to identify major opportunities and gaps in biomedical research that no single institute at NIH could tackle alone but that the agency as a whole must address, to make the biggest impact on the progress of medical research. All Institutes are involved in this endeavor.

The Roadmap is composed of three overarching themes: new pathways to discovery, research teams of the future, and re-engineering the clinical research enterprise. All three of these broad initiatives have funding opportunities associated with them, which NIDA grantees can apply.

*******Just a Reminder – Regarding IRB Submission of Grant Applications ---**

Please submit the complete copy of the final grant application involving human subjects to the IRB for review. Per BSD IRB policy, the IRB must review the grant application submitted to the agency prior to providing IRB approval to the agency. This is to ensure that the project as proposed is concordant with the protocol(s) as approved. During the application submission and review process, applications with human subjects are marked as “pending” approval until the IRB certification. Generally, it is advised to submit the application to the IRB after one has received the priority score for NIH applications. If the IRB protocol is already approved, please submit an amendment adding the submitted grant to the IRB protocol. If there is no existing IRB protocol that encompasses the work described in the project, a new protocol will need to be submitted to the IRB. Failure to submit the application to the IRB in a timely manner will hold up NIH Just-In-Time (JIT) submissions and award acceptance for other agencies. For more information, please contact the IRB at 2-1472 or 4-7674 or ORS Pre Award Office at 4-2182*****
