

CHICAGO STATE UNIVERSITY  
DEPARTMENT OF BIOLOGICAL SCIENCES

Faculty position: Assistant Professor-Molecular  
Microbial Physiology

Applications are invited for a full-time, tenure-track faculty position in the area of Microbiology. Applicants must have a Ph.D. and have demonstrated research potential in microbiology. The candidate should be broadly trained in genomics, proteomics and microbial physiology. An emphasis is placed on teaching excellence in introductory non-majors biology, microbiology and advanced microbiology courses for undergraduate and graduate students. The applicant is expected to establish an externally funded research program, mentor graduate students, and engage in collaborative research. The Department of Biological Sciences provides a diverse and supportive scientific environment. Chicago State University is an Affirmative Action, Equal Opportunity Employer. Applications from female and minority candidates are strongly encouraged. Applicants should submit a letter of application, curriculum vitae, statement of research goals and teaching philosophy, and arrange to have three letters of recommendation sent to Dr. Raj Sinha, Chair, Microbiology Search Committee, Department of Biological Sciences, Chicago State University, 9501 S King Drive, Chicago, IL 60628.
